

## Farmington Competiton Cheer Plant Fundraiser - South Cedar Greenhouses

### Plant Descriptions

**Begonias (Shade):** Begonias are prized for their rose-like display of flowers which grow 2-4" in size. They bring vivid ever-blooming color to shady spots.

**Impatiens New Guinea (Partial Shade):** New Guinea Impatiens provide hard-to-find brilliant color in shade and display lovely foliage as well. The plant is known for its large flower size and strong, well-branched habit.

**Geranium (Partial Shade):** A lovely trailing geranium. Round clusters of multiple of flowers on 4-6" stems are striking against glossy bright green leaves 2-3" across with ivy-like pointed lobes. *Sold in hanging basket or patio pot.*

**Petunia (Sun):** Spreading petunia creating a mound of flowers that freely bloom all season.

**Mixed Annuals (Sun):** Combinations of premium annuals for sun. *Sold in hanging basket or patio pot.*
